

Residential Lock

F2 SERIES

You won't need keys anymore

F2 series eliminates issues commonly associated with mechanical keyed locks. It is easy to leave keys or accidentally lock them inside your home. This isn't a problem with F2 series. The F2 residential Models are with High security 304 stainless steel through advanced hardened high resistance anti-drill plates to protect the clutch mechanism. Compatible with any types of mortises for standard wooden door, slide door, and aluminium extruded section door.

Multiple Locking methods for multiple users

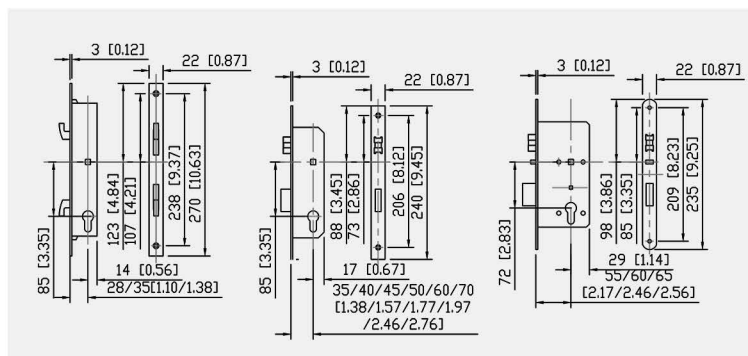

The F2 series supports a variety of secured unlocking methods. Instead of having to make multiple keys for your families and friends; it is easily to program the F2 locks for multiple users. You can easily send, add, and delete or disable user codes, schedule access for certain times/days and also can view lock activity, history and status notifications when lock is used when you connect the lock with your smart phone through the APP.

Also you can remotely view and calibrate the lock clock, read the unlocking records with the gateway management (need to buy separated)

Main Features:

- High security with 1.5mm 304 stainless steel through advanced hardened high resistance anti-drill plates to protect the clutch mechanism.
